

AllClear Repair Services (ACRS), an AllClear company, is an authorized service center for CEF for select C-130 components. This designation expands ACRS' repair capabilities and provides operators with a trusted, authorized source for high-quality component repair.

ACRS performs repairs on designated C-130 components in accordance with CEF standards, ensuring consistency, compliance, and reliable turnaround times. This capability strengthens support for operators maintaining mission-critical C-130 fleets worldwide.

By aligning with CEF, ACRS is increasing repair capacity and helping meet growing demand for dependable, authorized sustainment solutions.

For operators, this means faster turnaround, trusted repairs, and consistent support backed by CEF authorization and ACRS' proven military aviation expertise.
